W Collection

W Collection

The W collection results from the combination of primitive ceramic techniques with new environmental responsibility.

We collect, treat and transform all clay and glaze waste before the firing stage.

After an internal recycling process, one for clay and another for glaze, new pieces are produced based on recycled raw materials.

W Collection is the **W**aste **W**inning **W**ay.

W Collection

It fills us with pride to be able to launch a collection that contributes to the conservation of the planet's natural resources, due to our focus on reusing waste materials.

The W collection is also one that combines the knowledge of different generations.

Freya

Freya

In Norse mythology Freya is the goddess of love and war. Freya collection was born to celebrate her strength showing elegant pieces with some cracks that represent the scars left by her lifelong battles. Idyllic pieces at the table for a celebration worthy of the Valhalla gods.

Freya Collection has been distinguished as a Winner at the German Design Awards 2024.

The German Design Awards are the largest prizes of the German Design Council and among the most recognised international design awards. For ten years now, the German Design Council has been honouring pioneering designers and their work with this coveted prize.

Nosse is proud to present a project with a distinctive design, especially the mug which has an unusual handle designed for better ergonomics, all pieces contain some cracks that incorporate imperfections to facilitate production. In Norse mythology FREYA is a symbol of the warrior woman and this line was born to celebrate women's strength.

Seed

Seed

Pottery is an ancient technique to create utilitarian ceramic pieces. That's what the Seed collection intends to honor.

Seed represents the love for ceramic art. It represents handmade craft: hands are the most important instrument one has to create unique pieces from a potter's wheel.

Edge

Edge

Inspired by the timeless Japanese wabi-sabi philosophy, where acceptance of imperfection is key, the Edge Collection blends sharp, rough edges with matte and glossy finishes in soft earth and ash tones. Fine stoneware with golden reflections elevated to an art form.

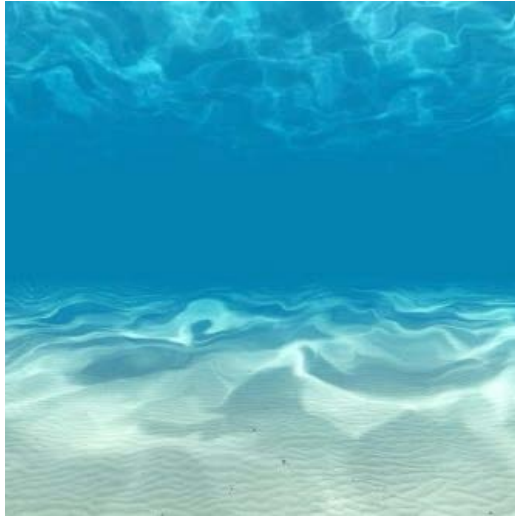

ASIAN CONCEPT

Oyster Plate

Capturing the essence of the seabed, where the ripple of the sand meets the delicacy of the shells. Each oyster rests on a base that recreates the subtle, natural touch of submerged sand, bringing a unique sensory experience to the table that evokes the purity and serenity of the sea. It is a celebration of the ocean, where the simplicity of nature is transformed into culinary art.

Ubuntu

Ubuntu

I am well if you are well. Ubuntu draws inspiration from the millenary culture of the African peoples, in the sense of compassion, communion, and generosity. The well-being of the individual is the cornerstone of the community and humanity. Beauty is achieved, made of countless imperfections and tiny flaws.

Nosse Ceramic Studio has been distinguished as a Winner in the 'Excellent Product Design' category at the German Design Awards 2022.

The brand submitted their UBUNTU collection in Aura Gold, which was selected as an outstanding and commendably realised design work.

The German Design Awards are the largest prizes of the German Design Council and among the most recognised international design awards. For ten years now, the German Design Council has been honouring pioneering designers and their work with this coveted prize.

EXCELLENT PRODUCT DESIGN

The Ubuntu Collection from Nosse Ceramic Studio wins a GOOD DESIGN® Award.

Founded in Chicago the GOOD DESIGN® rewards new products, graphics and packaging in Europe, Asia, Africa, North and South America.

This is one of the world's most prestigious, recognized, and oldest Design Awards program organized annually by The Chicago Athenaeum Museum of Architecture and Design in cooperation with the European Centre for Architecture, Art, Design and Urban Studies.

NEW SHAPES

Coral Candle Holders

Coral reefs, essential to the planet's balance, shelter 25% of marine species in less than 1% of the ocean floor and play a crucial role in regulating atmospheric carbon dioxide (CO₂). Inspired by the beauty and function of corals, our candle holders capture the magic of the deep ocean, creating a special atmosphere.

NEW SHAPE

Sea Urchin Consommé

Inspired by the shape and texture of a sea urchin, it is a tribute to the ocean. The exterior, delicately textured with pointed details, evokes the protection and complexity of sea urchins, while the smooth, elegant interior cradles the consommé with grace and sophistication. Every detail has been designed to create a culinary experience that blends the robustness of marine nature with the elegance of haute cuisine.
